Texas Oil Field Driver – Odessa, TX

Important Notice – Location Requirements for Applicants

Thank you for your interest in the Texas Oil Field Driver position at Goodson National Trucking. Please read the following before applying:

Due to the location of our operations and equipment, only candidates who meet the criteria below will be considered:

- Arizona residents are strongly preferred. Our operations and equipment are based in Phoenix, AZ, so local drivers will not need to travel to retrieve their truck.
- Texas applicants will only be considered if they reside within one hour of Odessa, TX—the job site location. Proof of current residency is required.
- If selected, Texas-based drivers must travel to Phoenix, AZ to retrieve their assigned truck. We will cover the cost of the flight for this trip.
- Applicants living outside of Arizona or the Odessa area will not be considered, as long-distance equipment recovery is not feasible for our operations.

There will be no exceptions to these location requirements. We appreciate your understanding and cooperation.
